Laura Nguyen - lmn20@psu.edu

Tyler Peters - tzp28@psu.edu

Description: Create a Web App for Penn State Users so that they may be able to post and trade/give away old used items such as Textbooks, Notes, furniture, household items, and other personal items to other Penn State students across all campuses. There will be a messaging aspect so students can discuss their items and propose trading opportunities.

Roles:

John Janisheski - Develop the Account Management System and Verification of users so that only Penn State Students are able to access the application.

Sarah Derr - Developing back end html that will connect the app pages together in a cohesive manner

Yuhui Li - front end html including log in pages

Laura Nguyen - Develop the adding items and posting items feature

Tyler Peters - Messaging feature
